About us

- Proven experience in F2P, premium, and subscription-based games for PC and mobile platforms, serving a broad spectrum of players – from kids to midcore gamers.
- We excel in diverse game modes and genres, including multiplayer PvP/ PvE, action-adventure, battle royale, MOBA, RPG, as well as action, strategy, and arcade games.
- Flexible and easily adaptable - we can handle full development, co-development, LiveOps, or even prototyping.
- We've built games for partners such as Netflix, NCSoft, and Amazon.
